Client Testimonial:

“We worked with Graduate Promotions for the first time this academic year (2008/09). Our objective was to raise our profile at selected universities and to publicise more widely the opportunities on offer at our firm.

In the past, our limited resources have made this difficult to achieve but Graduate Promotions provided us with both a cost effective and hassle-free campaign that certainly reaped the right results!

We will definitely be looking to increase our involvement with Graduate Promotions going forward.”
